Logical Investigations. Vol. 17. M.Spб.: C.G.I., 2011.
Logical Investigations. Vol. 18. M.Spб.: C.G.I., 2012.
Logical Investigations. Vol. 19. M.Spб.: C.G.I., 2013.
Logical Investigations. Vol. 20. M.Spб.: C.G.I., 2014.

Author’s Index of vol. 11–20 of “Logical Investigations”¹

ALECHINA N.

- A general method of proving decidability of intuitionistic modal logics (with Shkatov D.)..... XIII 5
On modal logics with existential modality (with Shkatov D.)..... XII 5

ANELIS I.H.

- How Peircean was the “Fregean’ Revolution” in Logic?..... XVIII 239

¹Const. by Migla A.V.

ANISOV A.M.

- A computational meta-model of the reality and the
 problem of truth XIII 24
 Classical computability and indicators of
 non-determinism XIV 5
 Definition of real truth concept in set theory with
 ftoms XI 5
 Nondeterministic computability:
 philosophical foundations XV 5
 The concept of reality and logic XII 14

ARKHIEREEV N.L.

- Logical modalities as arithmetical functions XVI 3
 Semantic of possible sets of truth-values for S5.
 Decision procedure XVII 5

BAKHTIYAROV K.I.

- How computer may think in terms of boolean
 many-valueness XVII 14
 Logical positionality XVIII 26
 Metascience symbols (universal characteristic) XX 211

BARRAL F.

- Non-standard reductions and categorical models in typed
 lambda-calculus (with Chemouil D., Soloviev S.) XII 300

BASUKOSKI A.

- Natural deduction system for linear time temporal
 logic (with Bolotov A., Grigoriev O.,
 Shangin V.) XVII 71

BATASHOV D.

- A paranormal sublogic of intuitionistic logic (with
 Popov V.) XII 62
 On a nine-valued paranormal logic with (with
 Popov V.) XII 54
 On untabularity of a paranormal logic XII 49

BAZHANOV V.A.

- Logic in Russia and Orthodox Church XVIII 5

- P.S. Poretsky. Life and scientific activity of pioneer in russian investigations in the field of mathematical logic XI 23
- The communist party and logic. On the history of a pivotal decree of the Central Committee of the All-Union Communist Party of 1946 XII 32
- BELTUKOV A.P.**
 Manifest of applied constructivism (with Nepeivoda N.N.) XVI 199
- BEZHANISHVILI M.N.**
 Logical omniscience and epistemic tableaux predicate calculus XI 34
- BEZIAU J.-Y.**
 What is a logic? Towards axiomatic emptiness XVI 272
- BIRYUKOV B.V.**
 Alexander Ivanovich Vvedenskiy as logician.
 Part I (with Biryukova L.G.) XVII 34
 Alexander Ivanovich Vvedenskiy as logician.
 Part II (with Biryukova L.G.) XVIII 34
 Early application of logic to technology: Ehrenfest, Gersevanov, and Shestakov. From the applications of logic to civil engineering and relay schemes to the logical theory of the measurement of physical quantities (with Shakhov V.I.) XIV 73
 Foreign schools of philosophy of mathematics and their reflection in philosophical-logical and historical-mathematical thought in Russia of XVII-XX centuries (with Kuzicheva Z.) XII 67
 Foreign schools of the philosophy of mathematics and their influence on philosophy of logic and history of mathematics in Russia in XVIII-XX centuries (with Kuzicheva Z.) XIII 47
 Life and career of Victor Ivanovich Shestakov, the creator of the logical theory of relay schemes (with Verstin I.S., Levin V.I.) XIV 27

Ludvig Wittgenstain and Sofia Aleksandrovna Yanovskaya “Cambridge Genius” becomes acquainted with soviet mathematicians in 30th years (with Biryukova L.G.)	XI 46
On the problem of priority in the discovery of the logical theory of contact-relay schemes. A document from the archive of V. I. Shestakov	XV 31
The problem of logical contradiction and Russian religious philosophy (with Pryadko I.P.)	XVI 23
BIRYUKOVA L.G.	
Alexander Ivanovich Vvedenskiy as logician. Part I (with Biryukov B.V.)	XVII 34
Alexander Ivanovich Vvedenskiy as logician. Part II (with Biryukov B.V.)	XVIII 34
Ludvig Wittgenstain and Sofia Aleksandrovna Yanovskaya. “Cambridge Genius” becomes acquainted with soviet mathematicians in 30th years (with Biryukov B.V.)	XI 46
BOLOTOV A.E.	
Natural deduction in a paracomplete setting (with Shangin V.O.)	XX 222
Natural deduction system for linear time temporal logic (with Basukoski A., Grigoriev O., Shangin V.)	XVII 71
BRUSHINKIN V.N.	
Logic and proof-search procedures	XVI 85
BYSTROV P.I.	
A method of mutual conversion of labeled and tableaux deduction	XII 109
Relevant calculus in analitic tableaux form	XI 95
CARNIELLI W.	
Formal polynomials, heuristics and proofs in logic	XVI 280
CHAGROV A.V.	
Algorithmic problem of finitary semantics entailment for basic and formal A. Visser’s logics	XI 282

- Demise of the algorithmic agenda in the correspondence theory? (with Chagrova L.A.) XIII 249
- Remarks on natural minimal logics: Visser's basic and formal logics and their modal counterparts XII 293
- The algorithmic problem of finitary semantic consequence for propositional formulas I XIII 216
- CHAGROVA L.A.**
- Demise of the algorithmic agenda in the correspondence theory? (with Chagrov A.) XIII 249
- CHEMOUIL D.**
- Non-standard reductions and categorical models in typed lambda-calculus (with Barral F., Soloviev S.) XII 300
- CHERNOSKUTOV YU.YU.**
- Logic and object theory in 19th century: from Bolzano to Frege XIX 10
- DEVYATKIN L.YU.**
- Equality of consequence relations in finite-valued logical matrices XIX 273
- Four consequence relations, three orders, two matrices, one bilattice XVIII 127
- n-valued matrices for the classical propositional logic ... XV 94
- On some functional properties of three-valued logical matrices for classical logic XVII 109
- Three-valued matrices with classical consequence relation for an arbitrary propositional language XX 246
- Three-valued isomorphisms of classical logic XI 119
- DRAGALINA-CHERNAYA E.G.**
- Formal ontologies as abstract logics XII 162
- The logic of colors in model-theoretical and game-theoretical perspectives XIX 23
- FEDOSEEV A.**
- On finitely-generated implicational structures (with Khomich V.) XIII 200

FINN V.K.

Standard and non-standard logics of argumen-
tation I XIII 158

FYODOROV B.

The introduction of singular terms into Bolzano syllo-
gistics XII 263

GERASIMOVA I.A.

P.A. Florensky about the contradiction (logical and
methodological analysis) XVIII 77

GORBUNOV I.A.

Continuum classes of logics (with Rybakov M.N.) XIV 131
Independent bases of deductive systems XV 78
Well-defined logics XVII 95

GOROKHOV V.G.

The logic and technology: from electric circuit theory to
nano systems engineering XVIII 97

GRIGORIEV O.M.

Bipartite truth — one logic (with Zaitsev D.V.) XVII 121
Natural deduction system for linear time temporal
logic (with Bolotov A., Basukoski A.,
Shangin V.) XVII 71

HINTIKKA J.

The modified Ramsey theorem is not a Godel sentence XIX 33

ILYIN A.A.

Traditional syllogistic with negative terms XVII 140

IVLEV YU.V.

Generalization of Kalmar's method for quasi-matrix
logic XIX 281

KARAVAEV E.

Once more on difficulties of the construction of deontic
logic XII 170

KARPENKO A.S.

- The subject of logic in the light of the basic tendencies of
its development..... XI 149
Von Wright's truth-logic and around XIX 39
Continuity of three-valued logic: problems and
hypotheses..... XVI 127
Towards protologic..... XVII 152

KARPENKO I.A.

- Embedding operations and their application..... XII 182
The concept of 'Translation': history and theory..... XIX 308

KHAKHANYAN V.KH.

- Functional algebraic models for HA and set theory
with intuitionistic logic XII 272
Functional-algebraic model of S-realizability XIII 196
Intuitionistic arithmetic with Markov principles and P XIV 283
On one property of universes in realization models
for intuitionistic set theory..... XV 229
Properties of ordinals in the set theory with intuitionistic
logic XIII 191
Set theory with intuitionistic logic: basic system XI 278

KHOMENKO I.V.

- The path of logic in Ukraine: a history of concepts..... XIX 51

KHOMICH V.

- On finitely-generated implicational structures (with
Fedoseev A.)..... XIII 200
On isomorphic embedding of finite Boolean algebras
and topological Boolean algebras..... XII 282

KOMENDANTSKAYA E.Y.

- Functional interdependence of regular Kleene logics ... XV 116

KOTIKOVA E.A.

- First-order logics of branching time: on expressive power
of temporal operators (with Rybakov M.N.) XIX 68

KOVALEV S.

- Application of Lukaseiwicz logics to algorithm design.. XII 194

KOZACHENKO N.P.

Rationality criteria within belief revision: consistency. XVI 134

KRACHT M.

Gnosticism or: how logic fits my mind XVIII 273

KRASNENKOVA A.V.

Proof search in the natural deduction systems for
negative syllogistics XIV 152

KRUSHINSKY A.A.

Genetic deduction as an alternative to the traditional concept
of deduction as inference from the axioms XIV 176

KUZICHEVA Z.

Foreign schools of philosophy of mathematics and their reflection
in philosophical-logical and historical-mathematical thought
in Russia of XVII-XX centuries (with Biryukov B.) XII 67
Foreign schools of the philosophy of mathematics and
their influence on philosophy of logic and history of
mathematics in Russia in XVIII-XX centuries (with
Biryukov B.) XIII 47

LEDNIKOV E.E.

A logic of knowledge and related notions XIII 132
Knowledge and belief: its role in science and communi-
cation XVII 167
On one variant of dynamic-epistemic logic XIV 218
Semantics of first-order dynamic logic XV 129
Some peculiarities of first-order logics of belief and
knowledge XII 207

LEVIN V.I.

Akira Nakashima and logical modelling of discrete
schemes XIV 187
Continuous logic: basic notions XIII 114
Interval logic and some of its applications XI 172
Life and career of Victor Ivanovich Shestakov, the creator
of the logical theory of relay schemes (with Biryukov B.V.,
Verstin I.S.) XIV 27
Victor Ivanovich Shestakov and logic modelling XVI 157

- LISANYUK E.N.**
Deontic 'cocktail' according to E. Mally's receipt XIX 100
- MALINOWSKI G.**
Multiplying logical values..... XVIII 292
- MANIN YU.I.**
Truth as value and duty: lessons of mathematics XV 284
- MARKIN V.I.**
E.K. Voishvillo's theory of concept: value and prospects XX 58
Fundamental syllogistics with indefinably-placed
constant XI 187
Positive syllogistic $C3^+$ with the constant of comple-
teness..... XV 137
Singular extensions of Lukasiewicz syllogistic XVII 173
What trends in non-classical logic were anticipated
by Nikolai Vasiliev? XIX 122
- MCHEDLISHVILI L.I.**
Aristotle's apodeictic syllogistics: method of derivation
of superfluous information; fragmentarity XI 228
- MIKIRTOUMOV I.B.**
Compositional and non-compositional types in
intensional logic XI 200
Compositional conceptualization in intentional logics.. XII 211
Ernst Mally's theory of objects and intensional logic... XX 76
Pragmatic predicates and epistemic dynamic in logic
of sense I XIV 224
The laws of reason and logic in Nikolai Vasiliev's
system XIX 136
- MOISEEV V.I.**
Projective-modal ontology and some it's applications... XI 215
- MOSKVITSOVA N.G.**
Lesniewski's logical systems XVIII 141
- MUTANEN A.**
Formal methodology XV 296

NEPEIVODA A.N.

- Technical systems in logic: questions of formalization
and automatic verification..... XIX 148

NEPEIVODA N.N.

- Abstract Chaitin's theorem and its methodological
consequences..... XIX 166
Constructive mathematic: review of progress, lacks and
lessons. Part I..... XVII 191
Constructive mathematic: review of progress, lacks and
lessons. Part II..... XVIII 157
Constructive mathematic: review of progress, lacks and
lessons. Part III..... XX 110
Intellectual viruses..... XIV 240
Manifest of applied constructivism (with
Beltukov A.P.)..... XVI 199
Reverse constructive logics..... XV 150

NIINILUOTO I.

- Successful science without miracles..... XIX 184

NOVOSYOLOV M.

- On by-gone days (from the history of the first
national philosophical encyclopedia)..... XII 226

PAVLOV S.A.

- Bi-lattices for belnap logic and its extensions..... XII 243
Extensions of the domain of definition of truth predicate
to the restricted scope of symbolic expressions..... XI 238
Modification of Frege's and Dunn's semantics for propo-
sitional logics..... XIII 136
Modified Fregean semantics and functional inter-
pretation..... XIV 252
The truth operator for classical propositional logic
and its extension to not-well-formed formulas..... XV 169

POPOV V.M.

- A paranormal sublogic of intuitionistic logic (with
Batashov D.)..... XII 62
Between $Int_{\omega,\omega}$ and intuitionistic propositional logic.. XIX 197

Embedding classical propositional logic into paralogics related to Par	XX	149
Four simple paralogics: semantics and sequent calculi.	XIV	262
Intuitionistically acceptable paranormal logic (with Shuklin G.N.)	XI	243
On a nine-valued paranormal logic with (with Batashov D.)	XII	54
Sequent-systems axiomatizing simple paralogics	XVI	205
Some intervals between simple paralogics	XV	182
Syntax and semantics of simple paracomplete logics (with Shangin V.O.)	XIX	325
Two sequences of paraconsistent logics	XIV	257
Interpolation theorem for simple paranormal logic $Int_{0,\omega}$	XVIII	182
Sequential axiomatization of paranormal logic PContPComp	XVII	240
Sequential axiomatization of propositional Nelson's type logics	XVII	246

POPOV O.V.

The intensional use, <i>appellatio rationis</i> and incomplete object descriptions: an analysis of nonextensional contexts in the works by J. Buridan and E.K. Voishvillo	XX	159
---	----	-----

PRELOVSKIY N.N.

A non-Cartesian extension of system E	XVII	251
Cardinality of sets of closed functional classes in weak 3-valued logics	XIX	334
Infinite-valued Łukasiewicz logic and criteria for existence of factor-semantics in multi-valued logics	XX	179
On two precomplete classes of three-valued Łukasiewicz's logic	XVIII	197

PRYADKO I.P.

The problem of logical contradiction and Russian religious philosophy (with Biryukov B.V.)	XVI	23
--	-----	----

REZNIK M.

Structuralism and the identity of mathematical objects..... XVI 221

RYBAKOV M.N.

Continuum classes of logics (with Gorbunov I.A.) XIV 131
 Embedding of intuitionistic logic in his two-variable fragment and complexity of this fragment XI 247
 First-order logics of branching time: on expressive power of temporal operators (with Kotikova E.A.) XIX 68

SANDU G.

Dynamic logic versus GTS: A case study XIX 200

SHAKHOV V.I.

Early application of logic to technology: Ehrenfest, Gerasevanov, and Shestakov. From the applications of logic to civil engineering and relay schemes to the logical theory of the measurement of physical quantities (with Biryukov B.V.) XIV 73

SHALACK V.I.

A logic of terms XIV 286
 About genetic method XVII 281
 An alternative definition of logical consequence XIII 274
 Logic of Abelian groups XI 290
 Logic of functions vs logic of relations XVI 259
 Logic of groups and free groups XI 298
 Logical analysis of definitional deduction XV 266
 M.I. Sheinfinkel and combinatoric logic XV 274
 On the concept of proof XIV 301
 Protologic and its structure XX 196
 Semiotic foundations of logic XIX 225
 The logic of alternative logical consequence XIII 274
 The logic of functional consequence XVIII 234
 Two approaches to the construction of logic XVII 269

SHANGIN V.O.

Natural deduction in a paracomplete setting (with Bolotov A.E.) XX 222

- Natural deduction system for linear time temporal logic (with Bolotov A., Basukoski A., Grigoriev O.) XVII 71
- Natural deduction systems of some logics with truth-value gluts and truth-value gaps XVII 293
- Syntax and semantics of simple paracomplete logics (with Popov V.M.) XIX 235
- SHEINFINKEL M.I.**
- On the bricks of mathematical logic XV 232
- SHIYAN T.A.**
- Modelling of logical knowledge and knowlegde-based deduction by means of databases XIV 306
- SHKATOV D.P.**
- A general method of proving decidability of intuitionistic modal logics (with Alechina N.) XIII 5
- Analogue of Makinson's theorem for the normal modal logics with Segerberg's operator XI 304
- On modal logics with existential modality (with Alechina N.) XII 5
- SHRAMKO Y. V.**
- Logic of computer networks (with Wansing H.) XII 119
- Logical entailment and marked values (with Zaitsev D.V.) XI 126
- SHUKLIN G.N.**
- Intuitionistically acceptable paranormal logic (with Popov V.M.) XI 243
- SMIRNOVA E.D.**
- A general approach to the construction of semantics and its methodological foundations XII 249
- An approach to the interpretation on intensional contexts XIX 238
- Epistemological and logico-semantical foundations of paradoxes XIV 271
- Towards an explication of semantics concept of truth XI 262

SOLOVIEV S.

Non-standard reductions and categorical models in typed
lambda-calculus (with Barral F., Chemouil D.)..... XII 300

STESHENKO N.I.

Analytic tableaux for Rogovsky's propositional logic... XV 185
Rogovsky's logic as a functional system..... XIII 142

STROLLO A.

A case for satisfaction classes: model theoretic vs axiomatic
approaches to the notion of truth..... XIX 246

SUVOROV V.V.

Synthesis of logical axioms in hypercube structures
space..... XI 267

TAMMINGA A.

Correspondence analysis for strong three-valued logic.. XX 253

TOMOVA N.E.

Implicative extensions of regular Kleene logics..... XVI 233
Natural p-logics..... XVII 256
Natural three-valued logics and classical logic..... XIX 344
On four-valued regular logics..... XV 223

TONOYAN L.G.

The relation of logic following in Severin Boetsius's
treatises..... XVIII 211

VASYUKOV V.L.

Dialogue games for Dishkant's quantum modal logic.. XIX 353
Logical pluralism and non-classical category theory.. XVIII 60
Metalogical pluralism and universal logic..... XVI 106
Non-Fregean guide for Husserlian and Meinongian
jungles..... XI 99
Non-Fregean guidebook to Husserlean and Meynongian
jungles. II..... XII 146
On the structure of universal logic..... XIII 95
Paraconsistent categories for paraconsistent logic..... XVII 69
The inner logic of universal logic..... XV 58

- The problem of context of interpretation in universal
logic XIV 105
- VERSTIN I.S.**
Life and career of Victor Ivanovich Shestakov, the creator of
the logical theory of relay schemes (with Levin V.I.,
Biryukov B.V.)..... XIV 27
- VLADIMIROV A. A.**
On a concept of non-infinite set in constructive mathematics.
Part I..... XVII 84
- VOISHVILLO E. K.**
To the problem of the justification of apodictic knowledge
XX 8
- WANSING H.**
Logic of computer networks (with Shramko Y.) XII 119
- ZAITSEV D.V.**
Bipartite truth — one logic (with Grigoriev O.M.) .. XVII 121
Dispositionality, enthymeme and knowledge XX 46
Intuitionistic semantics of relevant consequence
relation XV 106
Logical entailment and marked values (with
Shramko Y. V.)..... XI 126
Proto-Entailment in RS logic..... XIX 260
- ZNAMENSKAYA N.A.**
On the problem of expressibility operations of characteristic
matrices of paraconsistent and paracomplete logics . XVIII 132
- ZNATNOV S.Y.**
On the software for computer proofs XI 138
